

## Who We Are?

The International Refugee Rights Association was established in Istanbul in 2013 to protect and defend the rights of asylum seekers who are displaced, unable to return to their country and seeking asylum. Our association mainly operates in the fields of law, research, education, media, academia and humanitarian aid.

“  
One Human One World

## FIELDS OF ACTIVITY

- Legal Assistance & Rights Advocacy
- Research & Reporting
- Humanitarian Diplomacy & Lobbying
- Academic Studies
- Field Studies
- Educational Studies
- Media and Press

## We Provide Legal Assistance to Refugees!

We provide legal assistance and consultancy to all foreigners who have had to leave their country for justified reasons, regardless of their race, language, religion and gender, for the solution for legal problems.

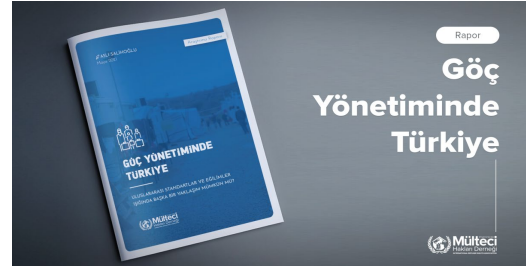

## We Reach Refugees on the Field!

We strive to ensure that refugees have a self-sufficient and decent life. For this purpose, we organize food aid, cross-border festivals in war zones, book analyzes, journey and war stories, round table meetings and language training.

## Education is a Must for Us!

We provide basic classes to refugee children and teens with the aid of volunteer teachers, instructors and psychologists, and raise awareness of the public on migration with projects that contribute to their right of access to education and training. We bring together academics working on migration via our seminars, conferences and panels.

## We Steer the Public with Our Publications!

We publish analyses, briefings and reports in order to inform the public and decision makers on the migration agenda.

## We are the voice of the refugees in the media!

We produce informative publications for refugees with both visual content and press conferences on subjects such as their rights, application systems and methods, what to do in emergencies and institutions that can be contacted.

## We continue to maintain our international contacts!

We carry out joint projects in Qatar, Sweden and Geneva to improve the well-being of refugees.
